Working on Walking Sticks

Have you ever wondered how many things can be made from peanuts? George Washington Carver, an American Hero of Faith, did, and asked God to show him. He was able to produce more than 300 products from peanuts including: milk, dyes, paint, medicinal oils, soap, and plastics. Carver credited the Creator for the many discoveries he made from so many plants and minerals. The campers this year at Camp Rise And Shine enjoyed learning about these discoveries.

The camp theme was: "Heroes: Amazing Stories of Faith". There were stories from the Bible Heroes as well as more modern day Heroes who "walked by faith, not by sight".

The craft project went well with the theme. Everyone made walking sticks. It was a craft project that was really enjoyed by the boys and the girls and took their whole week to complete.

Another thing the campers enjoyed was sleeping on the new bunkbeds. What a blessing that was. Thanks to everyone who contributed!

A lot of great things happened at camp. During the boys week there was one boy who made a profession of faith accepting the Lord Jesus Christ as his Savior. That is what makes camp worthwhile - seeing lives changed! Thank you, everyone for your prayers and support!

Love in Christ, Mark & Betty Dudley

P.S. Don't forget to check the camp website to see more photos.
