On the new Carousel at the Ark

It was such a blessing to be able to, once again, take the camp groups to The Ark Encounter and the Creation Museum in Kentucky. We appreciate each donation that helped make the trip possible. If you have never been to either place and have an opportunity to go, it is well worth the trip. The wealth of knowledge to be gained is amazing. We were impressed with the young people's desire to learn and were pleased to see them take the time to read the information plaques at each of the displays and exhibits.

We had some great discussions around the table when we got back in the evenings. (Good eating too!)

On the way home (a round about way back to West Virginia) we stopped at the John Rankin House in Ohio. The Rankin House was part of the "Underground Railroad" before slavery was abolished. It was quite a history lesson and hearing the stories how God used this family to help slaves get their freedom was inspiring. If we allow God to use us for His service, we can accomplish mighty things through Him!

Pray with us as we begin to plan for next Summer. It will be tough to top this year's camps, but we know we will come through with the direction of the Lord. Some of the first timers this year are all excited about Camp next year!

Camp Rise And Shine is such a wonderful way to get young people under the sound of the Gospel of Jesus Christ and a great way to minister to lives physically, mentally, and spiritually. There is joy in serving our Lord and Savior Jesus Christ. Thank you again for making this ministry possible through your prayers and support.

Love in Christ,
Mark & Betty Dudley
