BUGLE

March 2024

Greetings from Wild, Wonderful, *and Wet* West Virginia. It looks like 2024 is continuing where previous years left off. We have been getting plenty of wet weather - a little bit of snow and a lot of rain.

We are in the middle of a large excavation project which we started in the Fall but had to stop and wait for dryer weather to resume. We are enlarging the recreation field and clearing some trees from the pool area. Speaking of the pool, we were in need of a new liner for it and decided to take it down during the excavation project and we discovered some of the metal sidewalls and rails were rusting through. We've come to the conclusion we need to replace the pool, so we are investigating the possibilities and choices. An inground would be nice but the cost is prohibitive. The old pool is round but would an oval be more suited for camp? Choices, choices, and more choices.

We are also in need of some building maintenance repairs and overhauls. Looks like we will be very busy right up to camp time.

If you are able and feel led to help with funds for these projects or any other area, please fill out the bottom section of this newsletter and send it in.

Summer camp time is coming upon us quickly. Our weeks have been scheduled for July 7-12 and July 14-19. We will tell more about it in our June newsletter as we are still in the planning stage for our camp program.

Thank you for your continued prayers and support.

Love in Christ,
Mark & Betty & the Board of Directors
